

Patterdale Parish Community Flood Group – Beck Work List

The list of work below is a summary of the main beck work to be completed within Patterdale Parish between June and September 2016. The purpose of this document is to serve as a single list for use by the consenting authorities. All work to be carried out by the Community Flood Group will adhere to the following criteria:

1. All work will be carried out in the “permitted” window of June to September
2. All work will be carried out by agreed contractors who have worked with the EA in the Parish since December 2015 and conform to the H&S requirements and will be working under the direction of the Community Flood Group and will be paid for by the Community Flood Group
3. Full permission for all work has already been agreed with the relevant landowners
4. The specific work required has already been discussed in detail with the relevant agencies, for example the EA and Natural England. If specific further guidance is required this will be sought on a case by case basis.

Ref	Location	Landowner	Work Required	Responsibility
1	Glenridding Beck Mouth to Ullswater	Glenridding Sailing Centre/Ullswater Steamers	Clear centre beck mouth channel to ensure steady flow into the lake until the banks on either side have been fully stabilised	Community Flood Group
2	Glenridding Beck from Village Hall down to below Glenridding Hotel	Highways/LDNP/ Glenridding Hotel/Glenridding Sailing Centre	In addition to the beck wall repairs work is needed to clear gravel and stone in this stretch including under Glenridding Bridge. This work will be done whilst the wall repairs are completed	EA/Glenridding Hotel Contractors
3	Grisedale Beck below Grisedale Bridge	Matson Ground Estates	Infill holes at the bottom of the beck wall as required in the lane leading to Grisedale Bridge Houses	Community Flood Group
4	Grisedale Beck in the Grisedale Valley	Matson Ground Estates	Beck clearance and beck management as part of the agreed upstream management plan being developed in conjunction with Eden Rivers Trust	Community Flood Group
5	Goldrill Beck from Goldrill Bridge to Patterdale School	Choice Hotels	Selective removal of gravel deposits to alleviate river flow and prevent repeat flooding of Patterdale CofE Primary School	Community Flood Group
6	Goldrill Beck from Side Farm Bridge to mouth of Ullswater	Choice Hotels	Selective removal of gravel specifically just past the junction of Goldrill and Grisedale Beck	Community Flood Group
